

The OFT Statement of scope for market study into home buying

The OFT market study into home buying and selling needs your input.

The attached *Word* document outlines the five main questions that need your participation.

Please open up the document, add your comments in the space provided, (it's very quick to do as it can be as rough as you like as we will tidy and combine with the other members views), then save your responses and return them to us as an attachment.

Please help the Society prepare a formal submission by letting us have your comments by 2pm, 17th March.

Help us to help our profession and have your say!

Thank you.
